

Counterfeit, Fraudulent and Suspect Items Policy

At Taziker Industrial Ltd, safety is considered as a priority, and the co-operation of our supply chain is essential in maintaining the highest standards for all the goods we use and supply.

We understand the potential risks concerning the supply of Counterfeit, Fraudulent and Suspect Items (CFSI) within the supply chain, and to this end we only choose suppliers that can demonstrate the quality and source of the goods that we require.

Employees involved in the purchasing of goods are aware of the potential for CFSI, and orders are controlled through the company purchasing system to ensure that all goods are purchased directly from agreed and official distribution channels.

Our Engineering department undertake assurance activities to ensure steel material and components are traceable back to source manufacturers and approved suppliers.

This Policy will be reviewed annually.
